

Ms. Lugo Zayas' Spanish 2 students at the High School will be holding an extracurricular activities fair on March 17. In this project students will exhibit fictitious teams / clubs with one common goal: convince others to join their activity. For the event **there is a need of Spanish speaking community members** to contribute to this educational process by visiting booths and engaging in conversations - interviewing the students in order to help them develop their ideas - as if they were prospective students about to join said teams / clubs. WSHS students will be using level 2 initial vocabulary and grammar while presenting.
