

STEAM After School

Spring 2020 Virtual Session

April 6th – June 12th

STEAM is excited to transition online and continue support of all students.

Overview:

- Offering Online Homework Center and enrichment opportunities for students.
- Bring together a network of teachers and school counselors to support students with homework and social emotional support.

Enrichment & Activity Schedule:

Please see attached document. Homework Center will be available to students from 3-4pm to support them with schoolwork, projects, and homework. Enrichment activities will be 4-5pm, focusing on providing students with exposure and experience to increase their English Language Arts skills. Students will take part in opportunities to interact with peers and staff by exploring yoga, positive psychology, strategic gaming, poetry and more.

April 6th is the start of the Homework Center,

April 13th is the start of remote enrichment activities.

Families will enroll using an online registration form using Google Forms.

Link to register:

https://docs.google.com/forms/d/e/1FAIpQLSeFlsagcfOAcSoa2uB8dZMFw1QWARHi5x59wD5DaSOxh3PWbg/viewform?usp=sf_link

Students must join STEAMs Google Classroom, using code: qre63jk

Materials:

- Basic familiarity with Google Classroom & Google Meet.
 - A safe space to participate in activities at home.
 - Access to internet
- 

Spring Remote Enrichment Activities:

- **Creative Arts:** Students will explore different mediums of art, using watercolor, sketching, collage techniques and more to create masterpieces of their own.
 - **Fitness & Conditioning:** Improve cardio endurance and build muscle while sweating off the stress. Using body weight exercises, high intensity interval training, Pilates and more, students will feel their body strength evolve.
 - **Yoga & Meditation:** Students will explore relaxation techniques that will help them feel more calm and centered. A physical yoga practice centering on bringing positive energy in and letting go of tension will help students find peace during the waves of life.
 - **Positive Psychology:** Students will learn about the main concepts of psychology, how they relate to today's world, and how to use psychology to attract what they want into their lives.
 - **Terrier Talk:** A community space for students to share social and emotional topics with staff and other students.
 - **Sci-Fi:** Students can explore the realm of fantasy with Sci-Fi, as well as developing their math skills with online gaming and problem solving.
 - **Poetry Slam:** Students will explore the work of Shel Silverstein and then be challenged to create their own poems and share them with the group.
 - **Book Club:** Students will choose a book to read, discuss, and enjoy together.
 - **ESports:** STEAM's Esports Team will hone their skills and strengthen their teamwork in League of Legends and other age appropriate games of your choice. Desktops or a laptop preferred. Other platforms will be explored too. A headset with a microphone is a plus but not mandatory.
